Substance use disorder treatment measure billing codes

UnitedHealthcare Community Plan of Washington

The Washington State Department of Social and Health Services developed this substance use disorder treatment measure to report the percentage of members with a need for substance use disorder (SUD) treatment who receive qualifying SUD treatment in the measurement year.

When a member has a **SUD treatment need,** you can help improve member outcomes on this measure by using the appropriate billing code when delivering a **qualifying SUD treatment**.

SUD treatment is needed when the patient:
- Is diagnosed with drug or alcohol use disorder
- Has screening, brief intervention and referral to treatment (SBIRT) services that reveal a need for treatment
- Receives withdrawal management
- Receives qualifying SUD treatment (meeting at least 1 of the qualifying scenarios)

You deliver a qualifying SUD treatment when the patient:
- Receives at least 1 SUD treatment service (meeting at least 1 of the qualifying scenarios)

Closing the measure
- Refer patients to SUD treatment after an SUD diagnosis, even during treatment for non-SUD care
  - We can help you with referrals or coordination of care — call us at the behavioral health number on the member's ID card or search for a local behavioral health care professional at **UHCprovider.com/findprovider**
- For this measure, prescribing medications from Appendix B is counted as qualifying SUD treatment

Eligible billing codes

To help you understand how the state is using billing codes to track that a **qualifying SUD treatment** is being delivered, we're including 6 sample scenarios from the state based on the types of services being delivered. The codes for the services that are eligible and included in this measure are listed in:
- Appendix A (SUD diagnostic value set)
- Appendix B (MOUD-MAUD value set)
